Noderiety™

Node.js Bootcamp

@Noderiety

About Me: Adam Crabtree

- @CrabDude
- http://github.com/CrabDude
- Founder DallasJS, DallasNode & BayNode
- LinkedIn, HP Palm/webOS, many startups
- 5 years of node.js

Overview

Day 1: JavaScript 100 (Optional)

Introduction to JavaScript language fundamentals.

Day 2: Node.js 100, Core

Introduction to node.js' core functionality.

Day 3: Node.js 200, Applications

Developing application stacks with node.js libraries.

Execution Environments

- Google Chrome JavaScript Console
  - Windows/Linux: Ctrl + Shift + J (then Esc)
  - Mac: Cmd + Opt + J (then Esc)

- Node.js
  - Command prompt: `node`

Tools

- Linting: JSHint, http://www.jshint.com/
  - JSHint Plugins available for most editors
  - Uses .jshintrc for configuration
- Traceur: JSNext -> JS Today transpiler
  https://github.com/google/traceur-compiler/
  - npm run-script watch
  - Automatically converts src/*.es6.js -> dist/*.js
